

HIGH POINT CITIZEN'S POLICE ACADEMY ALUMNI ASSOCIATION

After attending the Citizen's Police Academy, many of the students enjoyed the experience so much that they wanted to continue their involvement with the Police Department. A non-profit group, The High Point Citizen's Police Academy Alumni Association was formed and prior academy graduates have the opportunity to join the Alumni's membership. The group meets at the Police Department one day a month to discuss business related issues. Often times, these meetings also have an educational component with members of the law enforcement community coming in to provide programs and information on a variety of issues of interest. In addition to the meetings, the Alumni Group works hard to support the Police Department. Through fundraisers, donations and volunteered time, they provide everything from meals for officers during holidays when most restaurants are closed to refreshments during ceremonies and functions. The group also provides funding through the form of a scholarship which is awarded for students obtaining a law enforcement related degree.

4th Annual High Point Police Department Fallen Officers Memorial Golf Tournament

Police Memorial Week is a special time for all Law Enforcement Officers across the United States. It is extremely important we never forget those who gave the ultimate sacrifice in service to their community, especially those from the High Point Police Department. The remembrance of these Fallen Officers is important not only to the law enforcement officers, but also to all members of the law enforcement family. The civilians who support and assist law enforcement agencies are a vital part of this family and feel the same loss when an officer falls in the line of duty.

- Marty A. Sumner, Chief of Police
